WORK EXPERIENCE

Software Development Engineer 2

Oct 2023 - Nov 2023

Hatio Innovations | Kochi, Kerala

- Worked on a cross-platform mobile application using React native and Typescript to allow crypto currency traders/investors to trade and invest.
- Integrated Freshchat mobile sdk provided by Freshworks. This helped in improving the customer support with features like chat support, raising a ticket for a query and providing FAQs section. Also enabled push notifications for the chats.
- Integrated Sentry for automatic errors reporting and exceptions, and identifying performance issues.

Software Development Engineer 1

Nov 2020 - Sep 2023

Hatio Innovations | Kochi, Kerala

- Created an operation portal (React + Typescript) for BillDesk to digitalize the manual process of fixing the commission rate for the merchants depending on the type payment methods opted by the merchants.
- Worked on web application (React + Typescript) Payouts to send bulk payments to customers, partners and employees.
- Enhanced code quality by developing generic reusable components and introducing Lazy loading, Custom hooks, useCallback and useMemo, resulting in a remarkable average product performance boost of 15%.
